Manager's Comments

What Went Well?

You have continued to make good progress since your last review and it is clear that your confidence has grown. You complete your assigned tasks well and can be relied upon to follow procedures and management direction. It is great to see how much you have improved your knowledge of 'Drive Thru' and 'Bev Cell', as you now work with much more confidence and make fewer mistakes than before. You work well as part of the team, support your colleagues when needed and have become a dependable member of the service team. Your development over the last year has been positive, and you should be proud of the progress you have made.

It would be even better if...

The next step in your development is to focus on creating a more memorable experience for every customer. I would like to see you be more welcoming by greeting customers and colleagues with confidence and letting your personality shine through. Make sure you acknowledge everyone you see at work and look for opportunities to adapt to each customer's needs rather than simply completing the order. Small actions such as smiling, making eye contact and giving customers your full attention will help you build stronger connections and consistently deliver the level of service they expect.
